

Paso Espanol

Inventor Jimmy Young
 1. performance: July 2004,
 Olympia Eisstadion in
 Garmisch-Partenkirchen

The dance is skated in Kilian or Reverse Kilian or Variations of this hold depending of level of skaters.

Steps are the same for man and lady.

The music is the Paso Doble ISU Music or any similar tempo paso.

The pattern is the same shape as the Canasta Tango and would repeat and start in the same place on the ice surface.
